British Enactments in Force in Indian States

Volume VIII

RAILWAYS IN INDIAN STATES.

For purposes of jurisdiction, railways in Indian States can be divided into three classes, namely, those on which the Darbars concerned have ceded full sovereignty to the British Government, those on which they have ceded jurisdiction¹ only, and those on which they retain both sovereignty and jurisdiction. The first class consists (with one² exception) of main lines planned previously to 1864 when that form of cession was relinquished: the second of main lines built since that date: and the third of local lines, situated as a rule in one State only. The lands of the first class are British territory to which the laws of British India extend as such: those of the second class, while remaining State territory are Administered Areas for which jurisdictional arrangements have been made as detailed in this Volume; while those of the third class are integral portions of the States in which they are situated and the only British enactments³ in force are those which operate in those States as shown in Volumes I to VII.

Geographically, the lines can be grouped in the following divisions:—

EASTERN DIVISION.

LINES ON WHICH DARBARS HAVE CEDED FULL SOVEREIGNTY.			LINES ON WHICH DARBARS RETAIN BOTH SOVEREIGNTY AND JURISDICTION.			
NAME OF RAILWAY.		States traversed.	Lines on which Darbars have ceded jurisdiction only.	NAME OF RAILWAY.		States traversed.

Eastern Ben- gal Railway.	Mayurbhanj Railway. Cooch Behar Railway. ⁵	Mayur- bhanj. Cooch Behar.

¹ The form of cession prescribed for this class runs:—

"I (Chief or Minister of the State) hereby cede to the British Government full and exclusive power and jurisdiction of every kind over the lands in the said State which are, or may hereafter be, occupied by the Railway (including all lands occupied for stations, for out-buildings and for other railway purposes) and over all persons and things whatsoever within the said lands."

² The North-Western Railway in Bahawalpur begun in 1871.

³ A Darbar retaining jurisdiction is required to adopt the provisions of the Indian Railways Act as a State Law, together with the general rules in force in British India for the working of railways.

⁴ Proclamations Nos. 878 and 879 dated the 31st May 1871, attached the lands north of Sutna to the North-Western (now United) Provinces, and those from Sutna southwards to the Central Provinces. *Gazette of India*, 1871, Pt. I, p. 411.

⁵ Intervenes between the metre gauge main line and the Santrabari extension of the Eastern Bengal Railway.

² The agreement of the Nawab of Rampur in 1864 (*Treaties*, Vol I, Ed. 1909, p. 28) to cede in full sovereignty any land required for the Oudh and Rohilkhand Railway was not acted upon, as the alignment then adopted lay outside the State. When the Bareilly-Rampur-Moradabad Chord of this railway was undertaken in 1892, the State ceded jurisdiction, the exercise of which is now provided for by notification No. 1947-I. B., dated the 16th September 1912, printed *infra*, p. 17.

CHAPTER III.—NORTH-WESTERN DIVISION.¹

In the North-Western Division of railways the provisions for the exercise of jurisdiction are as follows:—

A. *Nowshera-Durgai Railway and Peshawar-Landikotal Landikhana Railway.*—On the short length of the Nowshera-Durgai Railway in tribal territory the arrangements are identical with those in the rest of the Dir, Sawat and Chitral Agency. On the Jamrud-Landikhana section of the Peshawar-Landikotal-Landikhana Railway the arrangements are the same as those in the rest of the Khyber Agency. The Railway Act has not been applied to the portions of these lines which lie within agency limits, but only up to the administrative border in each case.

B. *North-Western Railway in Baluchistan.*—The sections of the North-Western Railway in Baluchistan (outside British Baluchistan) form an integral part of the Baluchistan Agency territories. Thus, the lengths of the Sind-Pishin line from Spintangi to Nari and from Sibi to the frontier near Jacobabad are included for all purposes in the Kohlu and Nasirabad District: the Mushkaf-Bolan line and the Quetta-Nushki section are similarly incorporated in the Bolan Nushki and Kachhi Railway District; and the Quetta loop lies in the Quetta District. All particulars regarding the enactments in force and the Courts exercising jurisdiction will be found in the Chapter dealing with Baluchistan Agency Territories.

C. *Other lines.*—The other railways in the Division fall into two categories, viz.:—

- (i) lines where the arrangements are assimilated to those of the neighbouring British districts, and
- (ii) lines where particular Acts have been applied and special Courts have been created.

The former are provided for by the following notification:—

No. 515-I. B., dated the 17th March, 1913.—Whereas the Governor General in Council has full and exclusive power and jurisdiction of every kind over the lands lying within the States specified in the second column of the schedule hereto annexed which are, or may hereafter be, occupied by the Railways specified in the first column of the said schedule (including the lands occupied by stations, by out-buildings and for other railway purposes), and over all persons and things whatsoever within the said lands:

In exercise of the powers conferred by the Indian (Foreign Jurisdiction) Order in Council, 1902, and of all other powers enabling him in that behalf, the Governor General in Council is pleased to provide as follows for the administration of the said lands.

¹ According to the classification *supra*, p. 2.

(1) All laws¹ for the time being in force in the districts of the Punjab specified in the third column of the said schedule shall be in force in the lands² lying within the States specified in the corresponding entry in the second column which are occupied by the portions of the Railways specified in the corresponding entry in the first column thereof.

(2) The Lieutenant-Governor of the Punjab and all officers subordinate to him for the time being exercising executive authority within the said districts shall exercise the like authority within the said lands.

(3) All Courts having for the time being jurisdiction within the said districts shall have the like jurisdiction within the said lands.

1. *Interpretation.*—In these rules “arms,” “ammunition,” and “military stores” have respectively the meanings assigned to them in the Indian Arms Act, 1878 (XI of 1878), except that the expression ‘military stores’ includes sulphur when in quantities exceeding ten seers in weight and leaden birdshot and bullets when possessed in quantities exceeding one hundredweight at any one time.

“Export” means transmission by rail from any station in any of the said lands to any station beyond the said lands.

“Import” means transmission by rail from any station beyond the said lands to any station within the said lands.

“Transport” means transmission by rail from one station in the said lands to another station in the said lands.

Explanation.—Arms, ammunition, and military stores taken from one station to another in the said lands across intervening territory which is not within the said lands are transported within the meaning of these rules.

¹ Inserted by Notification No. 249-I., dated the 19th May, 1924, see *Gazette of India*, 1924, Pt. I, p. 378.

2. *Export.*—(1) The export, without the special permission of the Political Agent, of arms, ammunition, or military stores is forbidden.

(2) Station Masters to whom arms, ammunition or military stores, unaccompanied by evidence of such special permission are tendered for despatch, shall detain them and report the matter through the Superintendent of Railway Police for the orders of the Political Agent.

3. *Import.*—(1) When any arms, ammunition, or military stores are imported, they shall not be delivered to the importer or consignee unless—

(i) the importer or consignee produces the original license issued by the Secretary to the Government of India, in the Foreign Department, or other competent authority, authorising the export of such arms, ammunition, or military stores from British India and their import to some station within the lands above referred to, and

(ii) the senior police officer at the station at which the arms, ammunition, or military stores have been received has compared the consignment with the license and authorised the Station Master to make delivery.

For the purpose of making the comparison required by clause (ii) the police officer shall have power to open any package which he thinks suspicious.

(2) If the importer or consignee fails to produce the original license, or if the consignment does not correspond therewith, the senior police officer at the station shall report the matter forthwith to the Political Agent.

4. *Information to be given by Station Master.*—Every Station Master shall give information to the senior police officer at his station of the arrival of any consignment of imported arms, ammunition, or military stores.

5. *Re-booking of consignments.*—A Station Master at whose station a consignment of imported arms, ammunition, or military stores is received may, after obtaining the sanction of the Superintendent of Railway Police, but not otherwise, forward the consignment, should the owner or consignee desire him to do so, to any other station within or beyond the lands above referred to.

6. *Transport.*—No license shall be necessary in respect of the transport of arms, ammunition or military stores, but immediate information of any such transport shall be given to the senior police officers at the stations of despatch and receipt by the Station Masters concerned.

passenger. he may at any time before such passenger has taken his place in the train, but not afterwards, refuse to carry him unless he delivers up his arms: if the passenger gives up his arms, they shall be labelled with his name and description, entered in the roadway bill, and delivered free of charge to him at his journey's end:

Provided that no person who has been duly exempted from the operation of sections 13—16 of the Indian Arms Act (XI of 1878), or has a license to carry arms granted by competent authority, shall, except in the case of evident and undoubted necessity, be required to give up his personal arms under this rule.

8. *Obligation to give information.*—Every person employed upon the railway shall, in the absence of reasonable excuse, the burden of proving which shall be upon him, be bound to give information to the nearest police officer regarding any box, packet, or bale in transit which he may have reason to suspect contains arms, ammunition, or military stores in respect of which an offence against these rules has been, or is being, committed.

11. *Search and seizure by Magistrate.*—(1) Whenever any Magistrate has reason to believe that arms, ammunition or military stores have been imported contrary to these rules, such Magistrate, having first recorded the grounds of his belief, may seize and detain the same in safe custody for such time as he may think necessary.

(2) In such cases notice calling upon the importer or consignee to appear and to produce the license referred to in Rule 3 shall be published for three months at the Railway Station at which the arms, ammunition, or military stores have been seized, and at such other places as the Magistrate may think necessary.

(3) If the importer or consignee does not appear and produce such license within three years from the date of such notice, such arms, ammunition, or military stores shall be confiscated.

12. *Disposal of confiscated articles.*—The orders of the Political Agent shall be taken regarding the disposal of articles confiscated under these rules, and such orders shall be final.

Any medical officer or qualified medical practitioner may, at any railway station in the Central India Agency, compel any person or all the persons in any train stopping at such station to alight from that train and undergo such inspection of body or property as the said medical officer or the said qualified medical practitioner may consider necessary for determining whether the said person or persons travelling by train is or are suffering from or is or are likely to be infected with bubonic fever or plague.

Rules for railways in Rajputana.

No. 3656—17-A.—V., dated the 8th September, 1911.—In exercise of the powers conferred on him by the 'Notifications of the Government of India cited in the margin, the Hon'ble the Agent to the Governor-General in Rajputana, and Chief Commissioner, Ajmer-Merwara, is pleased to prescribe, in supersession of all previous regulations and orders relating to the subject, the following Regulations under Section 2, Sub-sections 1 and 2 (b) of Act III of 1897, for the District of Ajmer-Merwara, and for all lands occupied by Railways within the limits of Rajputana.

PLAGUE MANUAL FOR RAJPUTANA AND AJMER-MERWARA, 1911.

PART I.—GENERAL ADMINISTRATION.

1. The general supervision of the arrangements for dealing with plague in the District of Ajmer-Merwara, and those connected with the observation and examination of travellers by railway in Rajputana, is in the hands of the Residency Surgeon and Chief Medical Officer in Rajputana, under the control of, and subject to report to, the Agent to the Governor-General in Rajputana, and Chief Commissioner, Ajmer-Merwara.

2. The District Magistrates, Ajmer and Merwara, and the Cantonment Magistrates, Nasirabad and Deoli, are responsible for the plague arrangements within their respective districts and cantonments. They may, respectively, within such limits issue such orders as may appear necessary, provided that they do not conflict with the general principles of these rules, and that an immediate report is made to the Head of the Department concerned, in any important case in which such order affects any officer not immediately under the control of the District or Cantonment Magistrate.

3. The Civil Surgeon of Ajmer, as Chief Health Officer of the district, will co-operate with, and advise the District Magistrate in all

¹ See now section 2A of the Epidemic Diseases Act, 1897 (III of 1897) as applied, *supra*, p. 186.

plague matters, and will be in direct charge of the necessary medical arrangements. He will be Inspecting Medical Officer in respect of the precautionary measures relating to travellers by railway within the limits of the district.

If a medical officer is specially appointed for plague work, he will perform the duties mentioned above, in lieu of the Civil Surgeon, but he should consult the Civil Surgeon freely whenever necessary.

The Staff Surgeon, Nasirabad, and the Agency Surgeon, Deoli, will be in direct charge of the necessary medical arrangements within their respective cantonments and will similarly co-operate with and advise the Cantonment Magistrates.

4. The term " Medical Officer " in these rules means and includes :—

- (a) the Civil Surgeon, Ajmer; the Staff Surgeon, Nasirabad; the Agency Surgeon, Deoli; the Assistant Surgeon, Beawar.
- (b) A Plague Inspecting Medical Officer at a Railway Inspecting Station, who is a medical officer appointed for the examination of railway passengers and connected precautions against the importation of plague.
- (c) Any other person appointed by the Agent to the Governor-General in Rajputana, and Chief Commissioner, Ajmer-Merwara, to be a medical officer for the purposes of these rules.

5. The term " Medical Assistant " includes all other medical practitioners in Government employ.

6. All the above officers are invested with powers to enforce the rules made by the Government of India and the Agent to the Governor-General, Rajputana, and Chief Commissioner, Ajmer-Merwara, under the Epidemic Diseases Act, and to issue such orders in any particular case as may be necessary for the carrying out of these rules.

7. Every effort must be made to enlist the services of influential non-official representatives of the native community. No measure can have any prospect of success unless the co-operation of the people be secured. The best means of securing such co-operation is to be found in the real and practical, not merely nominal, association of natives of ability and standing with the work of officials.

8. Any orders issued or action taken, of special importance or general application, by any person exercising authority under these rules, shall be immediately reported to the Residency Surgeon and Chief Medical Officer in Rajputana, and the Agent to the Governor-General in Rajputana, and Chief Commissioner, Ajmer-Merwara.

9. Any general orders issued by the Residency Surgeon and Chief Medical Officer in Rajputana to the Civil Surgeon of Ajmer in connec-

tion with plague operations, shall be forwarded through the Commissioner, and a copy shall at the same time be sent to the Chief Commissioner.

10. All expenses incurred in carrying out these rules shall, in the first instance, be paid (a) in the case of Ajmer-Merwara, if in a Municipality or Cantonment, from the Municipal or Cantonment Fund, otherwise from the District Fund or from any general allotment or special grant made for the purpose by the Government of India; (b) in the case of railway lands in Native States, either by the Darbar concerned or from any special fund or allotment to which the amount may, by order, be made debitable.

PART II.—PRECAUTIONS AGAINST IMPORTATION OF PLAGUE BY RAILWAY.

11. *There will be such stations for medical inspection of passengers on the line of railway as may from time to time be appointed by the Hon'ble the Agent to the Governor-General in Rajputana, and Chief Commissioner, Ajmer-Merwara.

At each of these stations the medical examination of passengers will be conducted by one or more Plague Inspecting Medical Officers.

12. The Residency Surgeon and Chief Medical Officer in Rajputana will supply to all officers concerned, a list of the areas which may from time to time be declared infected, and also notify all changes which may from time to time be made in such list.

13. Every train coming from the direction of any area which may be notified from time to time as infected for the purpose of this rule, may be detained at such stations so long as may be necessary for the medical examination of the passengers. The Railway authorities may detain the train so long as the Medical Officer may consider necessary for the purpose. On the arrival of the train at these stations, no passenger may alight from the train without the permission of a Railway Police or Medical official.

14. Any passenger shall, on being requested to do so, by any Railway Police or Medical official, alight from the train, and proceed for the purpose of medical inspection to any spot that may be indicated by such official.

15. No passenger shall depart from the spot so indicated without the permission of the Medical Officer.

16. The examination of females shall be effected under the orders of the Medical Officer by women only.

17. If, on inspection, and after due observation, the Medical Officer is satisfied that a passenger is suffering from plague, the Medical Officer

* At the present time Abu-Road is the only station appointed for Medical inspection under Rule II.

shall immediately remove such person to a temporary hospital established for the purpose, and shall arrange for the detention, dieting and medical treatment of such person therein for so long as he (the Medical Officer) may consider necessary. It is advisable for passengers who have travelled in company with a plague infected patient, to have themselves and their personal effects disinfected at once.

18. Subject to any instructions issued by the Agent to the Governor-General and Chief Commissioner, the Medical Officer has authority to detain any passenger who after a summary medical examination is found to be suffering from any suspicious symptoms. The Medical Officer shall remove any person so detained to the observation shed erected in the vicinity of the railway station. He may also arrange for the detention, dieting and medical treatment of such person in the observation shed for so long as he (the Medical Officer) may consider necessary.

19. In any case, a person removed to a temporary hospital may be accompanied by a companion or attendant, such attendants need not be detained but should, with their effects, be periodically disinfected during their attendance on the patient.

20. A person dealt with under the foregoing rules shall comply with any directions that may be given to him by the Medical Officer with regard to his removal to, and his detention and treatment in, an observation shed, or temporary hospital, and with respect to the disinfecting of his personal effects, to the disposal of any corpse, or any other similar matters. He shall not depart from any such place of detention without the permission of the Medical Officer.

21. The luggage and clothing of passengers detained under Rules 17 and 18 shall be disinfected in accordance with Annexure I.

22. Persons other than those mentioned above who alight from the train, and who come from an infected area, shall be brought under surveillance. Their names and addresses shall be ascertained, and they shall be ordered to report themselves daily for 5 days to such officer as the Medical Officer may direct. The officer will be furnished by the Medical Officer with a daily list of persons ordered to report themselves to him. He shall record in a register the daily attendance of such persons, and shall at once bring any case of failure to attend to the notice of the local authority concerned, who shall thereupon take necessary action to have the case promptly investigated.

23. Every case of suspected plague or of a death occurring in a case where the existence of plague was known or suspected, or of a corpse being found in a train, shall be telegraphed direct by the Medical Officer, Railway Police or Station Master, to whose knowledge it comes, to the Residency Surgeon and Chief Medical Officer, and also, in Ajmer-Mer-

wara, to the Commissioner, and to the Magistrate of the district in which the case occurs, and in the Native States, to the Resident or Political Agent, and the Residency or Agency Surgeon.

24. Railway vehicles in which suspected or declared cases of plague have occurred, should be stopped at, and not allowed to run further than either the station at which such cases are removed from the carriage or the nearest medical inspection station; and such vehicles should be disinfected in accordance with the instructions contained in Annexure III.

PART III.—SPREAD OF PLAGUE.

25. It has been scientifically proved that plague is essentially a rat disease, and there is no doubt that the disease is communicated chiefly from rats to man through the medium of the rat-fleas. The presence of dead rats is a warning that a human epidemic may be expected. It has been shown that in places where a vigorous campaign against rats has been conducted, the prevalence of plague has been very much reduced, and were it possible to exterminate the rats, plague would be at once arrested. Unfortunately this is no easy task.

It is useless to try and break down the prejudice that exists amongst certain castes against the destruction of rats but everything that is possible by means of persuasion and warning and demonstration should be done by officers, superintendents and others to secure the co-operation of these castes in effecting a diminution of the number of rats by any method which is found to be acceptable to them.

26. If permitted, persistent and careful rat destruction should be undertaken, *vide* Part VIII.

27. There is evidence that well-devised measures persistently carried out will largely reduce the rat population and thus retard, if not prevent, the spread of plague.

28. Spasmodic ill-directed efforts, as rats breed rapidly, can have little effect on plague and may do harm by discrediting not only rat destruction but other measures also.

29. A diminution of the food supply of rats by protection of grain stores, the careful removal of all garbage, manure heaps, stable and other refuse has a direct effect on the rat population which normally is only limited by the available food supply.

PART IV.—RULES RELATING TO MUNICIPAL TOWNS AND CANTONMENTS.

(1) *Preventive Action.*

30. The employment of volunteer agency such as the Municipal Ward Superintendents in Ajmer for discovering cases of plague, is to be

resorted to as far as possible, though caution must be used in the acceptance of the results arrived at by it. Owners and occupiers of houses, resident heads of families, employers of factory labour, and medical practitioners should be encouraged to bring to the notice of the authorities, cases of suspected plague and the arrival of persons from an infected area. In towns, the practice of dividing into circles or wards and of arranging for the working in each of prominent inhabitants of that quarter as volunteers, may, as a rule, usefully be adopted. Householders and medical practitioners will sometimes give to such persons information which they would hesitate to communicate to a Government official. The case of employers of factory labour is different, it may often be found more convenient for them to work directly with the authorities. Compulsory notification is not to be enforced, but voluntary notification must in every possible way be encouraged. Where volunteer agency is available, it must not be allowed to work spasmodically, on the contrary it is of the first importance that arrangements should be made for its systematic employment. All persons of whatever position should bring to the notice as early as possible (of the authorities), every case of the discovery of dead rats—also of plague cases and the arrival of persons from infected areas.

31. For the purpose of checking the occurrence of deaths, the District Magistrate or Cantonment Magistrate may post Police Officers or other officials at burial and burning grounds. Such officials may enquire of the mourners the place and cause of death, but shall not delay or interfere with the cremation or burial in any way. Compulsory corpse inspection by Medical Officers must not be resorted to, but during an outbreak of plague all deaths the cause of which cannot be determined should be treated as deaths from plague.

32. The Civil Surgeon, or authorised Medical Officer shall issue to the owner and occupier of a house such instructions as he may consider necessary with regard to the disinfection and cleaning of the building, the disinfection or destruction of personal effects, the disposal of any corpses, the improvement of the sanitary condition of the premises, and with regard to other similar matters. Pamphlets in vernacular containing simple instructions for the general public should be distributed.* The Medical Officer shall, if he considers it necessary, with the sanction—or in the absence of the owner—himself take measures for the disinfection of a house and for the other matters referred to in this rule.

33. Occupants of a house in which a case of plague has occurred, should submit to disinfection of themselves and effects when the house is evacuated for cleansing.

(2) *Action to be taken when an outbreak of Plague has occurred or is likely to occur.*

34. When there is reason to believe that cases of plague are occurring in a town, or are likely to occur owing to the discovery of dead rats, each quarter or mohalla should be placed, as far as possible, under the charge of an official to be called the Superintendent; these ward superintendents may be selected from members of a Municipal Committee, influential residents, or any persons of social standing.

35. They will assist in obtaining information regarding sickness and mortality in the areas respectively allotted to them. Under each superintendent will be a gang of coolies, varying in numbers to suit the requirements of each locality.

36. It should be clearly understood that on no account should any house be entered without the consent of the occupiers.

37. As a sound system of surveillance is one of the most useful means of preventing a healthy place from becoming infected, the people should be encouraged everywhere to carry out the work themselves, but the exact methods to be adopted will be determined by the authorities on the spot, with reference to local conditions and the resources at their disposal.

38. The Superintendent will exercise a general supervision over all the operations and will issue orders for the necessary action to be taken by each section of the gang of coolies. He should also explain the value of inoculation as a protection and rat extermination (as at paragraph 26) as a precautionary measure. In addition he should report any insanitary condition in his circle to the Health Officer.

39. On a report being received by a superintendent of the occurrence of a case of plague, he shall at once proceed to the house or other place where it is reported to have occurred. If the case is an undoubted case of plague, and is admitted to be such, he shall endeavour to arrange for the immediate removal of the patient to the Plague Hospital. No compulsion should be resorted to and no moribund person removed, but plague cases with no person to look after them should be treated in a plague hospital.

40. The other occupants of the place where the person suffering from plague resides, must not be compulsorily removed, but should be encouraged to evacuate the house and be inoculated themselves, and have their effects disinfected.

41. No houses vacated on account of plague should be re-occupied for at least one month, and only then if thoroughly cleaned and cleared of rats and vermin, and the Superintendent may cause a notice to that effect to be affixed to each vacated house. He should place a seal on

boxes containing valuable property left in houses which have been evacuated on account of plague. Such property may be removed by the owner, but if he declines to remove it, it will remain at his risk. Property of any value belonging to the poorer classes which it may be considered necessary or advisable to destroy as being infected, should be appraised by two or more respectable natives, and the value paid to the owner by the Superintendent of the Circle. Compensation should also be given without delay to the very poor for the destruction of clothes, etc., which although they may be of no marked value yet serve a useful purpose to the owners.

42. The District Magistrate, if requested to do so, may provide dépôts where boxes and bundles of property could be stored in safe custody.

43. After evacuation of a house the walls and floors of all rooms with their contents, except articles of food which it is not intended to destroy and of all enclosures, should be disinfected in the manner indicated in Annexure I. All rags and refuse found in the house or enclosure should be burned. It is always advisable to disinfect not only the one house in which a case of sickness has occurred or dead rats have been found, but those in the immediate neighbourhood as well.

44. The coolies engaged in the work of disinfection, etc., should, when possible, be inoculated also, *vide* Annexure I.

45. Experience has abundantly proved that the evacuation of an infected house or houses is seldom in itself sufficient to stamp out the disease. When plague manifests itself in one house in an indigenous form, the rats in neighbouring houses are already infected, and it usually follows that cases subsequently appear in them. It is therefore always a wise and prudent course on the occurrence of an indigenous case, to evacuate not only the one house, but also all those in the immediate neighbourhood.

46. It may be advisable, owing to the occurrence of several cases in one area, and while there is still some hope of stamping out the outbreak, to vacate a group of houses or a whole sub-division, and heads of mohallas, chowdries and influential residents should persuade the inmates to evacuate temporarily. The inhabitants of non-infected houses should be allowed the option of going where they please.

47. On the evacuation of the houses in the infected area, all the inhabitants of the non-infected portion of the town should be encouraged to leave the town, and any obstacles which may tend to delay their departure should, if possible, be removed.

48. The inhabitants of an evacuated house should be advised to remove sufficient grain for their personal consumption after it has been exposed to the sunlight so as to remove all danger of infection. If in

any case it is desired to remove grain for sale from an infected area, it must first be spread out, under the direction of the Superintendent, and exposed to air and sunlight for 48 hours.

49. Where cases of plague have occurred all grain godowns or places where grain is stored or sold shall be open at all times for inspection; all grain godowns in which dead rats have been found shall be declared unwholesome and unfit for use until thoroughly cleaned, disinfected and put in good repair—the grain should be opened out and exposed to the sun and all bags disinfected and sunned freely.

50. In the event of a death occurring from plague, the disposal of the body shall be arranged for in accordance with the religious practices of the deceased, and the instructions noted hereafter. In the case of a European or Muhammadan, the body shall be buried, the place of burial, if not an authorised cemetery, should be well away from habitations and sources of water-supply. In the case of a Hindu, the body shall be completely and thoroughly burnt in an isolated locality.

51. The District or the Cantonment Magistrate (as the case may be) shall provide suitable conveyances for the free carriage of persons suffering, or suspected to be suffering, from plague, and it shall be lawful to drive or carry such conveyances through any public or private thoroughfare.

52. Any conveyance, public or private, used for the carriage of a person infected with plague, or suspected of being infected, shall be thoroughly disinfected and exposed to air and sunlight previous to being again brought into general use and compensation should be given to the owner for loss entailed thereby.

(3) *General Precautions when plague has become epidemic.*

53. Evacuation and inoculation, as far as at present known, are the only reliable safeguards during an outbreak; and every endeavour should be made to instruct the inhabitants of their advantages.

54. As infected rats are not believed to travel spontaneously any great distances, camps can be arranged in fairly accessible sites so as to render attending to offices, business, and other occupations as convenient as possible.

55. Assistance in the form of material, money grants, or as locally deemed advisable might be given under the authority of the District Magistrate to persons asking for help and willing to evacuate their dwellings and camp out.

56. The advantages of inoculation should be fully explained, and all classes should be given every facility and encouragement to adopt this procedure. Poorer persons, coolies, etc., might be given a small allow-

ance to cover any loss by illness or inability to work after they have been inoculated.

57. As far as at present known, there is no evidence that the plague bacillus survives for more than a few days outside the body of men, animals, or fleas.

58. Disinfection of houses or rooms can be of little permanent use, if re-infection by fresh corps of infected rat fleas occur; therefore efforts should be made to organise rat-drives, trap rats, syringe, and sluice out rat runs and holes, with a pulicide disinfectant; followed up by the careful filling up or blocking with tar, concrete or plaster of all visible holes.

59. Houses should be kept as free from fleas as possible. The destruction of fleas can best be effected by thoroughly washing floors and walls with crude oil emulsion, Sanitary fluid, 10 per cent., or ordinary kerosine oil emulsion 20 per cent., in water, as explained under disinfection (An. I.). Freely oiling the body is a useful precaution against fleas; and persons exposed to their bites should be encouraged to adopt this simple precaution, especially at night.

PART V.—RULES RELATING TO NON-MUNICIPAL TOWNS AND VILLAGES.

60. The inhabitants of small towns and villages should as far as possible prevent persons from infected areas entering their limits, but should keep them outside for a certain time while their clothing, etc., is spread in the sun or otherwise disinfected.

61. In villages and non-municipal towns it is the duty of every Patwari, Bhumia, Lambardar, Patel, Court of Wards official, Kamdar or Havildar to at once report any suspected death or unusual sickness to the nearest Police station, and the officer in charge of the Police station, on receiving report of such sickness, shall carefully inquire and report as to symptoms.

62. The officer in charge of the Police station shall report immediately to the Tahsildar, the District Superintendent of Police, the Assistant Commissioner, the nearest Medical subordinate and the Civil Surgeon, any case of plague, actual or suspected, brought to his notice.

63. On receipt of a report of a case of plague from the Police under the preceding rule, the Tahsildar or, in his absence, the Naib-Tahsildar shall at once proceed to the spot, and if he finds that the death was due to plague, and that no other persons in the house in which the death occurred are ill, he shall proceed to dispose of the body (if not already disposed of), and to disinfect the house, clothes, and bedding of the deceased, as directed in Annexure I, at the same time reporting the result of his inquiry to the District Magistrate.

64. Officers of other departments when on tour shall, if they have reason to think that any case of plague has occurred, at once inform the Tahsildar, and send a copy of their report to the District Magistrate.

65. The nearest Medical subordinate to receive information of cases of plague from the Officer in charge of a Police station, will ordinarily be the Sub-Assistant Surgeon of a Branch Dispensary. The Sub-Assistant Surgeon on receiving a report of a case shall, if possible, at once visit the spot with the Tahsildar, and see that the necessary sanitary measures are taken. He shall communicate the result forthwith to the Civil Surgeon.

66. In places in which a Branch Dispensary is situated, the Sub-Assistant Surgeon shall, on report from Police or local authority, inspect arrivals and report any suspicious symptoms to the Civil Surgeon of the district. The Officer in charge of the station in whose circle the dispensary is situated, shall at once communicate to such Sub-Assistant Surgeon all particulars received by him under rule 62.

67. The Civil Surgeon or Plague Medical Officer will arrange to proceed or send a Medical subordinate to places reported infected and advise means in accordance with general instructions.

68. Should the Civil Surgeon consider it necessary that the inhabitants of a village in which plague has broken out, should temporarily camp out in the open or under trees at a distance from the village, he shall make a report to that effect to the District Magistrate, and the latter may advise the inhabitants to vacate their houses accordingly. The houses shall in this case be not again occupied till they are thoroughly ventilated and disinfected.

69. For the purpose of segregation, the District Magistrate or officer specially authorised by him in this behalf, may take possession of and occupy any vacant ground or building, such compensation being afterwards made to the owner or occupier thereof as may be fixed under rule .

70. The Civil Surgeon may advise any building to be vacated on suspicion of its being infected by plague, or on the ground of its being in a dangerously insanitary condition, and such building shall not be re-occupied without his permission.

71. In the case of villages badly infected, the whole of the inhabitants should be encouraged to entirely evacuate the village and to undergo inoculation. Villagers are accustomed to erecting shelters for themselves, but, if necessary, materials for hutting should be supplied. The sick and suspected villagers should be as far as possible separated from the healthy, without breaking up families, and an officer should be appointed to examine the daily health of the population and dis-

courage migration to other villages. All chowkidars left in charge of evacuated buildings or villages should be inoculated, if willing.

PART VI.—GENERAL.

72. The general principle of all plague administration must be that no pressure or compulsion, in any shape or form, is brought to bear on the people. Encouragement, persuasion and the provision of facilities for carrying out the measures advocated are the only legitimate means of influencing and guiding public opinion in the direction desired. The importance of avoiding any action which excites the opposition of the people, is to be clearly recognised, they must not be coerced, but on the other hand, they must be given the fullest help and guidance.

73. All preventive measures depend for their success upon the hearty co-operation of the people themselves and every effort must be made to enlist their sympathies and bring home to them through their natural leaders that it mainly rests with themselves to bring about, by their own action, the cessation of plague. This end can only be attained by carrying out thoroughly whatever measures it may be decided to introduce and by impressing on all officers concerned in plague administration that, when a decision has been arrived at, there must be no hesitation in giving effect to the policy approved by the Local Administration.

74. All Government servants and officers should give their most cordial support to all measures accepted by Government and unite in advising and persuading the people to accept them. The people cannot be expected to place confidence in measures if the servants of Government are apathetic or in opposition.

75. All Government servants and officers should co-operate towards the formation from the natural leaders of the people of a staff auxiliary to the special executive, and their education in all plague measures that can be carried out by the people themselves, so that every locality, that is in danger, shall have at hand a local plague officer to teach the people how to escape infection and how to deal with the disease, should it appear, and help them to do so.

Every assistance and guidance should be given by the Executive and Medical Staff in encouraging and developing this auxiliary staff of local plague officers.

76. It is very necessary that the efforts of this non-official auxiliary staff, and of all local notables, native hakims and others who work and assist should receive recognition. These persons have already been of the greatest use and in their intelligent development lies the chief hope of securing the co-operation of the people in plague measures. Where plague occurs severely, rewards should be given on a graduated basis,

the best most active and painstaking workers getting really substantial rewards whilst every one of the non-official agency who has done plague work should receive some recognition.

77. The exact scale of rewards is for the District Magistrate to decide, the actual distribution to be made as soon as possible after the conclusion of the outbreak. Rewards should take the form of money grants, khillats, special sanads, and for the humbler workers printed certificates which might be issued on the spot by plague medical officers to those who have rendered ready assistance.

Temporary staff who have done good work might be given chances of permanent employment.

PART VII.—MISCELLANEOUS.

Inoculation.

78. On an outbreak of plague occurring, the Residency Surgeon and Chief Medical Officer should at once place himself in communication with the Officer in charge of the Plague Research Laboratory in Bombay, with a view to obtaining a supply of lymph and syringes for inoculation, and instructions of their use. Inoculation should then be started under the personal supervision of the Civil Surgeon or a trained medical subordinate, and inoculation certificates granted, free of charge, to all who voluntarily undergo the process.

79. No person will be allowed to inoculate without the special sanction of a Commissioned Medical Officer.

80. An inoculator should be sent when possible to any infected village to enable the inhabitants to resort to this valuable means of protection.

81. No person shall be inoculated without his own express consent, but it is highly desirable that all officials, European and Native, leaders of Native Society and employers of labour should do all in their power by precept and example to render the measure popular, and to overcome any prejudice that may still exist against it. If any fact has been elicited by the experience of the recent epidemics of Plague in India and elsewhere, as well as by scientific research and experiment, it is that Haffkine's inoculation confers a very sensible, although not absolute, protection against attack, with a diminished case mortality among the few of the inoculated who happen to become infected, while its use is unattended with more than a few days' discomfort.

Every person who holds a certificate that he has been inoculated by Haffkine's process within the preceding twelve months, shall not be liable to detention when travelling, except for such time as may be necessary to disinfect such of his baggage or clothing as may be con-

sidered suspicious or for surveillance. Inoculation does not preclude the necessity for disinfection of a person's clothing and bedding which may harbour sources of infection.

The inoculation certificate shall be as far as possible in the following form:—

PLAGUE INOCULATION CERTIFICATE.

[COUNTERFOIL.]	No.	CERTIFIED that , father's name	
Name		, resident of	Street Village
Father's name

		<p>NOTE.—This certificate exempts the holder from detention when travelling, and from surveillance under the passport rules. It does not, however, exempt him from liability to evacuate an infected house, except in the case where all the occupants of the house have been inoculated, or to have his clothes disinfected when travelling. The certificate is valid for a period of twelve months.</p> <p>* Not always possible in district.</p>	

Passes.

82. Persons who have been disinfected, with clothes, bedding, etc., or who have been under surveillance for plague in Rajputana, including Ajmer-Merwara, may on departure be furnished with a certificate to this effect giving name, caste, age, occupation, address, destination and date of departure, signed by the Observing Officer.

83. Persons travelling from an infected area who hold a certificate signed by a Medical Officer of having undergone surveillance or had themselves and their effects disinfected, need not be again placed under surveillance unless it appears that they have subsequently been exposed to fresh infection.

Compensation.

84. The Commissioner may, in his discretion, pay compensation to any person who has sustained substantial loss or damage by reason of anything done under the powers conferred by these regulations, provided, however, that no person shall be entitled as of right to claim any compensation whatsoever.

PART VIII.—MISCELLANEOUS.

85. Methods for the destruction of rats.

(1) *By trapping.*—The “wonder trap” sold by Messrs. Eroom & Co., Calcutta, and a similar trap sold by the Army Navy Stores, Bombay, are very efficient and will capture 10 or 15 rats at a time. For baiting traps *chapatis* of Bajra, Maize or any kind of grain dipped in ghi may be employed.

(2) *By Rat poison*, which should be spread on pieces of chapatis or bread and then cut up into small squares. These are deposited in the evening in drains, culverts and places likely to be frequented by rats. The untaken baits are collected in the morning, search is then made for dead or dying rats and for three or four days subsequently. Both traps and poison should be laid down in drains and places where rats frequent during the night. Rats soon become suspicious and should then be left alone for a time, when another sudden onslaught should be made in the same way. Traps before being set should be washed in hot water or exposed to the sun. They should never be set unless in perfect working order.

Rats captured in traps are best killed by being dropped and drowned in barrels containing kerosene oil emulsion; which destroys their fleas at the same time. Dead rats should be thoroughly cremated. When rats have been killed all their holes should be stopped so as to imprison any fleas that may be in them. Pouring coal-tar into their runs is also a useful measure. It is most essential that all garbage that might serve as food for rats, be removed from houses and their neighbourhood.

(3) Rat destruction efforts may be taken in hand at any time but the most favourable periods for the attempts are August and September and again in February and March with the object of anticipating the breeding season. Special attention should be given to grain stores, Chumar's quarters and houses near rubbish heaps.

(4) During a plague epidemic destruction of rats otherwise than by trapping should not be attempted.

ANNEXURE I.

Disinfection.

The principle of the methods of disinfection that have been employed in the past has been the destruction of the specific germ of the disease. The investigations of the Plague Research Commission have thrown a new light on the subject, and experiments have shown that the infectivity of houses is mainly due to the presence of the infected rat flea, and that the contamination of soil, food, clothing, etc., with the plague bacillus is of secondary importance in the direct infection of men. This knowledge explains the failure, partial or complete, of the methods hitherto employed and indicates how they should be modified. Any system of disinfection should ensure the destruction firstly of fleas and secondly of the plague bacillus.

2. Disinfection is applied in three different sets of condition:—

- (a) To prevent the importation of plague into a healthy locality, the process involving the disinfection of clothing and property of persons coming from infected areas.
- (b) After importation into a healthy locality, to prevent the spread of infection from the imported case to other persons and particularly to the rat. In this case disinfection of the human habitation must be added to that of clothes and property. When information is obtained sufficiently early, this is possible, and should always be attempted.
- (c) After infection has passed to the rat from the imported cases or when a recrudescence occurs and the epizootic has begun. Here the process, to be perfect, must attack not only clothes, property and the human habitation, but the rat habitat in addition. It is evident that, however, perfectly it may be carried out, it cannot prevent the spread of the epidemic through the locality by the agency of the rat, and it is, therefore, applied merely to render infected rooms and houses free from further risk to its occupants.

3. Disinfection may be carried out by heat or by chemicals:—

- (a) *Heat.*—Exposure to superheated steam is an absolutely effective method for the disinfection of clothes and similar property. An expensive apparatus, which is difficult to transport, is required, and consequently it cannot be utilized, except in special circumstances. For clothing, etc., immersion in boiling water is an effective method and, being very simple, is particularly adopted for use in villages. Disinfection of rooms, with mud floors, may be car-

ried out by burning fires on the floor, and spreading the hot ashes entirely over the floor, up to the walls and into the corners. This simple procedure is also eminently suitable for villages, as the materials are always at hand and the principle of disinfection by heat is in accordance with the ideas and customs of the people.

- (b) *Chemicals*.—For a chemical disinfection to be effective for the prevention of plague, it must be an insecticide and a bactericide. The Imperial Entomologist says that the absolute destruction of fleas can generally be effected best by thoroughly washing floors and walls with a suitable insecticide and recommends "crude oil" emulsion as the best insecticide known. It should be used in a dilution of one part added to nine parts of water. "Sanitary fluid" 1 in 10 is as effective as crude oil emulsion. Kerosene oil emulsion as readily procurable is to be recommended, any of them may be used for disinfecting houses; immersion in a mixture of phenyl one part and water eighty parts for five minutes is a reliable method for clothing and similar property.

4. Whatever the method of disinfection employed, it will not be complete unless combined with the necessary treatment of the patient and his excreta, which should be carried out on the usual lines, this is particularly important in dealing with pneumonic plague. The rat as the principal carrier of infection through a locality must also be dealt with, and rat destruction carried out as soon as possible. Where the epizootic and epidemic is in progress, the rat has, however, usually left the houses in which plague has occurred, but in order to diminish further risk of infection in infected houses, in addition to the destruction of fleas and bacilli in the room by disinfectants, an attempt must be made to attack the rat habitat. Short of actual demolition of the houses, it is manifestly impossible to disinfect rat burrows and nests, but to provide, as far as possible, against a further irruption of fleas into rooms from the rat nests, rat holes should be searched for and stopped up; before stopping, the introduction of a little kerosene oil or tar is advisable.

5. In villages, reliance should be placed on the simpler methods, boiling water, fire, and exposure of property to the sun's rays not only because the materials needed are at hand in every village and are cheap, but also because the procedure can be carried out by the people themselves and is more readily accepted and adopted than methods involving the use of apparatus and materials they are not familiar with, and which consequently may cause suspicion and alarm. In towns, where intelligent supervision is usually at hand and where the people are more

educated, chemical disinfection is preferable to heat especially as with more than one story and wooden floors there would be risk of fire, if the latter was employed.

6. The disinfection of a room with chemical disinfectants should be carried out in the following manner:—The door is thoroughly washed down with disinfectant, it is then opened, and the disinfectant, syringed all over the floor of the room, all contents are then removed and disinfected out-side and allowed to dry in the sun. The walls and roof of the room are then thoroughly syringed with the disinfectant, care being taken to attack all crevices, recesses, cup-boards and receptacles. and a stream of the disinfectant should be directed into any rat holes that can be found; the rat hole should then be stopped.

7. *Equipment.*—For the simpler methods of disinfection by heat no special apparatus is required. For chemical disinfection, the following is necessary: a bucket, a bottle or two of the pure disinfectant, a tin measure of such a capacity that the addition of this measure of the pure disinfectant to the bucketful of water will make the proper dilution, and a syringe to distribute it. Thus equipped, water only is required to enable one man to disinfect several rooms. Where men are specially engaged for disinfection purposes, the usual precautions should be taken to guard them against risk of infection; they should be inoculated on engagement and provided with coarse clothing and protection for the legs and feet, to be used while at work only, and disinfected on completion of the day's duty.

8. The value of the free admission of light and air and the disinfecting and flea-killing power of the direct rays of the sun should not be lost sight of. Dirt, damp and darkness are favourable to vermin life and for the plague bacillus; the rat and rat flea are nocturnal in their habits, preferring dark ill-ventilated dwellings; desiccation destroys the bacillus. The removal of such conditions are, therefore, a most important part of plague prophylaxis, and stress should consequently be laid on general sanitary improvements, the widening of streets, the provision of windows and good ventilation in houses, the removal of rubbish, cowdung and other moist accumulations, the gradual substitution of brick and masonry floors and walls for the ordinary mud ones, so that buildings, especially those in which grain and other food stuffs are stored, should be rendered rat-proof.

9. Formula for kerosene oil emulsion:—

Country or Sunlight Soap	1 seer.
Boiling water	6½ seers.
Dissolve the soap in the water and then gradually add kerosene oil	30 „

Stirring and shaking well.

Hydro-carbon, Crude oil, petroleum, or presterine may be similarly used.

10. "Sanitary fluid" or crude creosote mixes with water easily to be used in 1 in 10 dilution.

Carbolic acid 5 per cent. or acid solution of perchloride of mercury 1 in 1,000 should be used for disinfecting excreta, sputum or other discharges, especially in pneumonic cases.

11. Sulphurous acid, and other sulphur products produced by the combustion of sulphur at a high temperature has been recommended as efficient and satisfactory for disinfecting houses and the property in them, and for destroying germs, insects and rats. Probably owing to the construction of the bulk of Indian houses it has not attained any great popularity.

ANNEXURE II.

Simple directions to guard against Plague.

Plague is an infectious disease, more dangerous than either cholera or small-pox. To avoid plague attacking your villages and homes:—

- (1) Do your best not to admit persons from places where plague is prevalent either in your homes or villages, but keep them outside for ten days.
- (2) Plague is spread by rats and fleas which infect rats, so try and guard all your grain stores so as to try and prevent rats getting at them and thus increasing in number in your villages, or if possible kill rats when you can.
- (3) If you notice dead rats about or in your dwellings, evacuate your houses at once and live outside for ten days or more, and have your houses thoroughly cleaned and your clothing spread out in the sun.
- (4) Directly a case of plague occurs in your village, have the person removed outside, and evacuate all houses in the neighbourhood of the infected house, and act as in (3).
- (5) If plague is prevalent in your village do not go about in bare feet.
- (6) In no case, should you conceal a case of plague, because it will be the means of infecting others, and for your own safety and to give a chance to the patient, move out of the house into the open. Also report any suspicious case at once.

-
- (7) When plague is in the neighbourhood you will find difficulty in being allowed to go about from one place to another without being detained, if you wish to avoid this and to be protected in a large degree from plague, you should apply to be inoculated with anti-plague vaccine. This is done something in the same way as your children are vaccinated to protect them from small-pox, and is of great value.
 - (8) All persons who are inoculated will be given a pass which will prevent them being detained anywhere and they will be comparatively safe from the disease, even in a plague affected district.
 - (9) All persons wishing to avail themselves of this protection from plague have only to send in their request to the local authorities when arrangements to help them with inoculation will be at once made.
 - (10) Whenever plague or suspicious cases of plague occur in a village or district every assistance will be given by the local authorities in helping with materials for Chappars, huts, etc., and with Chowkidars for the protection of your evacuated houses. So you should report cases at once and apply for assistance.
 - (11) Finally to help the authorities in combating this disease and for the protection of yourselves and your families, the co-operation of every man is essential. Let every man watch and report at once any and every suspicious case of Plague, as the sooner precautionary measures are taken, the less danger is there to other members of the community, and thus by helping the authorities in this way you are also helping to protect yourselves.

Copies of above should be translated in vernacular and freely distributed and explained in all towns, villages, etc., where an outbreak is feared. (Government of India Home Department 1517 of 1907, ordered such leaflets).

ANNEXURE III.

Instructions for the disinfection of Railway carriages.

1. Any railway compartment in which a plague patient or a suspicious case has travelled, should be emptied, all doors and windows opened to admit air and sunlight and the whole interior treated by brushing, washing—carbolic soap, and water—and all floors and crevices treated with kerosene oil emulsion.

2. After disinfection, the carriages should be kept out in the open for 48 hours. They can then be brought into use again.

3. In the case of first and second class carriages, which afford greater facilities than third class compartments for the harbouring of plague germs or fleas, it will be necessary, if the carriages are contaminated, to apply kerosene oil emulsion to the cushion and to disinfect the wood-work in the manner indicated above.

The copy so forwarded shall consist of complete sheets, containing at least 60 entries.

27. On the expiration of the calendar year, the remaining entries under each letter shall be copied and forwarded to the Registrar.

GENERAL RULES.

31. *Register Books*.—Book No. 1 is the register of non-testamentary documents relating to immoveable property. This Book and the Indexes relating thereto are open to inspection, and copies of entries in them shall be given to all persons applying for them on payment of the prescribed fees. In this book shall be entered all documents registered under sections 17 and 18 which relate to immoveable property and are not Wills. It shall contain the following headings:—

- (1) Value of stamp and copy of all endorsements made in the Registry Office.
- (2) Serial number of entry, and nature and value of transaction and amount of registration and copying fees and of fines levied.
- (3) Copy of document.
- (4) Note of certified copies of decrees and orders of Civil Courts. Copies of maps shall be pasted on to the first page of the entries to which they appertain.

32. When any document is registered in this book, affecting some other document previously registered in it, a note referring to the later document should be entered in the left hand margin (heading No. 4) of the entry of the earlier document.

33. A supplementary volume of this register in the form of a file book shall be kept up in each office, for the purpose of filling (pasting) in copies and memoranda of instruments received from other officers under sections 64, 65, 66 and 67. This volume shall be called “Supplementary Book No. 1,” and shall be so designated in the Indexes in all entries relating to documents filed in it.

34. Book No. 2 is the book in which reasons for refusing to register are to be recorded. It is also open to inspection, and copies of entries in it shall be given to all persons applying for them. When a Sub-Registrar refuses to register a document, on the ground that the property to which it relates is not situate within his sub-district, he need not make an order of refusal, nor record his reasons for refusal. It shall contain the following headings:—

- (1) Serial number and date.
- (2) Nature and value of transaction, and value of stamp.
- (3) Reasons for refusal.

35. Book No. 3 is the register in which Wills and authorities to adopt are to be entered after, they have been registered under section 41, also such Wills as have been opened under section 45. This book is

not open to inspection, nor are its Indexes, but copies of entries in it or them shall on payment of prescribed fees be given to persons executing the documents to which the entries relate or to their Agents, and after the death of the Executants (but not before) to any person applying for such copies; the search must be made by the Registering Officer only. When a Will entered in this book affects immoveable property situate in more districts or sub-districts than that where the entry has been made, no copy or memorandum of such Will need be sent to the Registering Officers of those districts or sub-districts. It shall contain the following headings:—

- (1) Value of stamp and copy of all endorsements made in the Registry Office.
- (2) Serial number of entry and nature of document and amount of fees levied.
- (3) Copy of document.

36. To prevent mistakes, it is here explained that every document making posthumous disposition of property is a Will, and should be entered in this book, and that a document which merely declares the fact of having adopted a son, or given a son for adoption, is not an "authority to adopt a son," and should not be entered in this book but in Book No. 4.

37. Book No. 4 is the miscellaneous register in which are to be entered all documents registered under clause (d) and (f) of section 18 which do not relate to immoveable property. It is not open to inspection nor are its Indexes; but copies of entries in it or them shall be given to any person executing or claiming under the documents to which such entries refer, on payment of the prescribed fees. The search must be made by the Registering Officer only. It shall contain the following headings:—

- (9) Time of opening of the sealed cover. Year, month, day, hour.

39. In addition to the above books, there shall be kept in every Registering Office a Book No. 6 for the purpose of recording brief

abstracts of Powers-of-Attorney, authenticated under section 33. It shall contain the following headings:—

- (1) Number (in consecutive series), commencing and terminating with the year.
- (2) Date (year, month, day).
- (3) Name and father's name of principal executing the power.
- (4) Name of Attorney.
- (5) Names of persons identifying the principal.
- (6) Abstract of the contents of the power and amount of fees levied.

Only Powers-of-Attorney to present documents for registration shall be recorded in this book, and this is the only description of Power-of-Attorney which Registering Officers can authenticate under section 33. General Powers-of-Attorney can be authenticated under this section, only when they *expressly* contain authority to present documents for registration.

40. If in any Registry Office the number of documents to be registered be so large that there is difficulty in entering them day by day in the appropriate register, the Registering Officer shall be empowered by the Inspector-General to keep up concurrently two volumes of either Register Book No. 1. or No. 4, the documents bearing even numbers being entered in one volume, and those bearing odd numbers in the other.

41. All documents shall be presented and registered at the Registration Office at the head-quarters of each district, or sub-district, as the case may be, except in cases specially provided for by the Act.

42. Where Registering Officers have other duties to perform, a certain portion of each day shall be allotted exclusively to registration work. The time so set apart shall be made generally known, and a written notice of it exhibited in a conspicuous and accessible part of the building in which the Registry Office is located. The notice shall state the hours at which documents will be received and returned daily.

43. At the hours appointed in the notice, the Registering Officer shall personally receive all documents for which registration is sought; have them examined in his own presence, and if they are to be admitted, inform each party of the amount he has to pay; and as soon as it is paid, the receipt prescribed in section 52 shall be given to him. If in payment of the fees any party pay more than the exact amount due, the balance shall be returned to him at once.

44. When the necessary endorsements have been recorded, the documents shall be made over to the Registry Moharrir, for the purpose of being entered in their appropriate registers, and as soon as this has been done, the Moharrir shall return the documents to the Registering

Officer, who shall retain them in his own possession until the time appointed for returning documents comes round, and then cause each to be delivered in his own presence to the proper party, the receipt given for it being at the same time taken back. If the party claiming to receive any document be other than the party to whom the receipt was granted, he must have been nominated in writing on the receipt by the original holder of it, as directed in section 61.

45. The receiving of documents or of money, the recording of endorsements and the returning of documents shall not be left to any Moharrir, to do at any time, or in the absence of the Registering Officer.

46. Registering Officers shall maintain a vigilant control over their Moharrirs, and not place them in closer contact with the public than is unavoidable.

47. When the Registering Officer is not personally acquainted with executants, he shall require them to produce persons to testify to their identity, who are personally known to him, or to some other person whom he personally knows. He may also, if he think fit, cause descriptive rolls to be recorded of the persons representing themselves as executants; but this procedure must be in addition to, and not take the place of the positive procedure required by section 34, that the Registering Officer shall satisfy himself of their identity, for it must be borne in mind that such descriptive rolls afford in themselves no proof of identity.

48. If the person presenting the document is an agent, he must produce a Power-of-Attorney executed in the presence of and authenticated by a Registering Officer, as required by section 33 of the Act. If he is a representative or assign, he must produce evidence of his status

49. *Endorsements*.—Endorsements shall be written as far as possible in the language best understood by the party presenting the document for registration: that is to say if he be a European, in English; if a Native, in Urdu or Hindi. The forms for endorsements appended, No. 2 shall be observed by all Registering Officers.

50. Endorsements shall always be written in the presence of the Registering Officer and of the executants of documents, or of the parties authorized to admit execution of them.

51. The fee prescribed for making a copy applied for under the Act shall be paid before the copy is prepared. Before granting an application for a copy the applicant should therefore be informed of the amount of fee leviable under Article IX of the Table of Fees prescribed by the notification of the Agent to the Governor-General in Rajputana, ¹No. 509-C.—1269, dated the 29th March, 1913.

A supplementary volume of this register in the form of a file book shall be kept up in each office, for the purpose of filling (pasting) in copies and memoranda of instruments received from other offices under sections 64, 65, 66 and 67. This volume shall be called “Supplementary Book No. 1”, and shall be so designated in the Indexes in all entries relating to documents filed in it.

34. Book No. 2 is the book in which reasons for refusing to register are to be recorded. It is also open to inspection, and copies of entries in it shall be given to all persons applying for them. When the Sub-Registrar refuses to register a document, on the ground that the property to which it relates is not situate within his sub-district, he need not make an order of refusal, nor record his reason for refusal. It shall contain the following headings:—

- (1) Serial number and date.
- (2) Nature and value of transaction, and value of stamp.
- (3) Reasons for refusal.

35. Book No. 3 is the register in which Wills and authorities to adopt are to be entered after they have been registered under section 41, also

such Wills as have been opened under section 45. This book is not open to inspection, nor are its Indexes, but copies of entries in it or them shall on payment of prescribed fees be given to persons executing the documents to which the entries relate or to their agents, and after the death of the Executants (but not before) to any person applying for such copies; the search must be made by the Registering Officer only. When a Will entered in this book affects immoveable property situate in more districts or sub-districts than that where the entry has been made, no copy or memorandum of such Will need be sent to the Registering Officers of those districts or sub-districts. It shall contain the following headings:—

- (1) Value of stamp and copy of all endorsements made in the Registry Office.
- (2) Serial number of entry and nature of document and amount of fees levied.
- (3) Copy of document.

36. To prevent mistakes, it is here explained that every document making posthumous disposition of property is a Will, and should be entered in this book, and that a document which merely declares the fact of having adopted a son, or given a son for adoption, is not an "authority to adopt a son", and should not be entered in this book but in Book No. 4.

37. Book No. 4 is the miscellaneous register in which are to be entered all documents registered under clauses (d) and (f) of section 18 which do not relate to immoveable property. It is not open to inspection nor are its Indexes; but copies of entries in it or them shall be given to any person executing or claiming under the documents to which such entries refer, on payment of the prescribed fees. The search must be made by the Registering Officer only. It shall contain the following headings:—

- (1) Value of stamp and copy of all endorsements made in the Registry Office.
- (2) Serial number of entry and nature and value of transaction and amount of fees and fines levied.
- (3) Copy of document.

38. Book No. 5 is the register of deposits of Wills, and is to be kept only in the Office of the Registrar who alone can receive Wills in sealed covers for deposits. It shall contain the following headings:—

- (1) Serial number.
- (2) Superscription on the sealed cover.
- (3) Inscription on the seal of the cover.
- (4) Time of presentation and receipt of the sealed cover. Year, month, day, hour.
- (5) Name of depositor of the sealed cover.
- (6) Names of persons testifying to the identity of depositor.
- (7) Time of delivery of the sealed cover to applicant for withdrawal. Year, month, day, hour.
- (8) Names of persons testifying to the identity of applicant at the time of delivery.
- (9) Time of opening of the sealed cover. Year, month, day, hour.

39. In addition to the above books, there shall be kept in each Registering Office a Book No. 6 for the purpose of recording brief abstracts of Powers-of-Attorney, authenticated under section 33. It shall contain the following headings:—

- (1) Number (in consecutive series), commencing and terminating with the year.
- (2) Date (year, month, day).
- (3) Name and father's name of principal executing the power.
- (4) Name of attorney.
- (5) Names of persons identifying the principal.
- (6) Abstract of the contents of the power and amount of fees levied.

Only Powers-of-Attorney to present documents for registration shall be recorded in this book and this is the only description of Power-of-Attorney which Registering Officers can authenticate under section 33. General Powers-of-Attorney can be authenticated under this section, only when they *expressly* contain authority to present documents for registration.

40. If in any Registry Office the number of documents to be registered be so large that there is difficulty in entering them day by day in the appropriate register, the Registering Officer shall be empowered by the Inspector-General to keep up concurrently two volumes of either Register Book No. 1 or No. 4, the documents bearing even numbers being entered in one volume, and those bearing odd numbers in the other.

41. All documents shall be presented and registered at the Registration Office at the headquarters of each district or sub-district, as the case may be, except in cases specially provided for by the Act.

42. Where Registering Officers have other duties to perform, a certain portion of each day shall be allotted exclusively to registration work. The time so set apart shall be made generally known, and a written notice of it exhibited in a conspicuous and accessible part of the building in which the Registry Office is located. The notice shall state the hours at which documents will be received and returned daily.

43. At the hours appointed in the notice, the Registering Officer shall personally receive all documents for which registration is sought; have them examined in his own presence, and if they are to be admitted, inform each party of the amount he has to pay; and as soon as it is paid, the receipt prescribed in section 52 shall be given to him. If in payment of the fees any party pay more than the exact amount due, the balance shall be returned to him at once.

44. When the necessary endorsements have been recorded, the documents shall be made over to the Registry Moharrir, for the purpose of being entered in their appropriate registers, and as soon as this has been

done, the Moharrir shall return the documents to the Registering Officer, who shall retain them in his own possession until the time appointed for returning documents comes round, and then cause each to be delivered in his own presence to the proper party, the receipt given for it being at the same time taken back. If the party claiming to receive any document be other than the party to whom the receipt was granted, he must have been nominated in writing on the receipt by the original holder of it, as directed in section 61.

45. The receiving of documents or of money, the recording of endorsements and the returning of documents shall not be left to any Moharrir to do at any time or in the absence of the Registering Officer.

46. Registering Officers shall maintain a vigilant control over their Moharrirs, and not place them in closer contact with the public than is unavoidable.

47. When the Registering Officer is not personally acquainted with executants, he shall require them to produce some persons, to testify to their identity who are personally known to him, or to some other person whom he personally knows. He may also, if he think fit, cause descriptive rolls to be recorded of the persons representing themselves as executants; but this procedure must be in addition to, and not take the place of the positive procedure required by section 34, that the Registering Officer shall satisfy himself of their identity, for it must be borne in mind that such descriptive rolls afford in themselves no proof of identity.

48. If the person presenting the document is an agent, he must produce a Power-of-Attorney executed in the presence of, and authenticated by a Registering Officer, as required by section 33 of the Act. If he is a representative or assign, he must produce evidence of his status.

49. *Endorsements.*—Endorsements shall be written, as far as possible, in the language best understood by the party presenting the document for registration: that is to say, if he be a European, in English; if a Native, in Urdu or Hindi. The forms for endorsements appended, No. 2, shall be observed by all Registering Officers.

50. Endorsements shall always be written in the presence of the Registering Officer and of the executants of documents, or of the parties authorized to admit execution of them.

51. The fee prescribed for making a copy applied for under the Act shall be paid before the copy is prepared. Before granting an application for a copy the applicant should, therefore, be informed of the amount of fee leviable under Article IX of the Table of Fees prescribed by the Notification of the Agent to the Governor-General in Rajputana,¹ No. ^{509-C.}₁₂₆₉, dated the 29th March, 1913.

2. *Application for registration.*—(a) Every application for the registration of a Society shall be submitted to the Registrar in the prescribed form.

(b) The application may be submitted either by a registered Society or Societies or by persons not less than 10 in number and all above the age of 18. When a registered Society is an applicant, the application shall be signed on its behalf by the officer of the Society duly empowered for that purpose under the bye-laws of the Society.

(c) Together with the application shall be submitted two copies of the bye-laws which the Society proposes to adopt unless the model bye-laws issued by the Registrar are adopted in their entirety, in which case a note to that effect shall be recorded on the application.

(d) When bye-laws other than the model bye-laws are adopted, the Registrar shall, when he has approved of them, return one copy to the Society, stamped with the official seal of the Registrar, at the time when he sends the certificates of registration.

3. When the Registrar refuses to register a Society or its bye-laws he shall record in writing his reasons for refusing.

4. *Compulsory bye-laws.*—(a) A Society shall make bye-laws in respect of the following matters:—

The nominee may become a member only if admitted by the committee.

22. The reserve fund shall be indivisible and no member shall be entitled to claim a specified share in it.

23. On the dissolution of a Society, the reserve fund shall be applied to discharging the liabilities of the Society and to the repayment of the share capital.

Any sum that may remain may be applied to such object of local and public utility as may be selected by the Committee and approved by the Registrar.

If within three months of the dissolution of the Society the Committee fails to select an object that is approved by the Registrar, the latter shall credit the balance of the reserve fund to the Co-operative Society to which the Society was affiliated or shall deposit the amount in some Co-operative or other bank until a new Co-operative Society with a similar area of operations is registered in which case it shall be credited to the reserve fund of the new Society.

24. *Dividend.*—(a) In a Society with a limited liability the dividend shall not exceed 12 per cent. per annum on share capital actually paid up. No bonus to shareholders shall be distributed in addition to dividend.

Rajputana and Central India Railway Lands Workmen's Compensation Rules, 1926.

No. 89-I., dated the 2nd March, 1926.—In exercise of the powers conferred by section 32 of the Workmen's Compensation Act, 1923 (VIII of 1923), as applied to the Rajputana and Central India Railway lands, the Governor General in Council is pleased to make the following rules:—

DRAFT RULES.

Preliminary.

1. *Short title.*—These rules may be called the Rajputana and Central India Railway Lands Workmen's Compensation Rules, 1926.

2. *Definitions.*—In these rules, unless there is anything repugnant in the subject or context,—

(a) "the Act" means the Workmen's Compensation Act, 1923, as applied to the Rajputana and Central India Railway lands;

- (b) "Form" means a form appended to these rules;
- (c) "section" means a section of the Act.

PART I.

REVIEW OF HALF-MONTHLY PAYMENTS AND COMMUTATION THEREOF.

3. *When application may be made without medical certificate.*—Application for review of a half-monthly payment under section 6 may be made without being accompanied by a medical certificate—

- (a) by the employer, on the ground that since the right to compensation was determined the workmen's wages have increased;
- (b) by the workman, on the ground that since the right to compensation was determined his wages have diminished;
- (c) by the workman, on the ground that the employer, having commenced to pay compensation, has ceased to pay the same, notwithstanding the fact that there has been no change in the workman's condition such as to warrant such cessation;
- (d) by the workman, on the ground that he has ceased, since the right to compensation was determined, to be a minor, provided that a certificate of the nature referred to in section 18 or any other certificate of a qualified medical practitioner is produced in support of the application;
- (e) either by the employer or by the workman, on the ground that the determination of the rate of compensation for the time being in force was obtained by fraud or undue influence or other improper means.

4. *Procedure on application for review.*—If, on examining an application for review by an employer in which the reduction or discontinuance of half-monthly payments is sought, it appears to the Commissioner that there is reasonable ground for believing that the employer has a right to such reduction or discontinuance, he may at any time issue an order withholding the half-monthly payments in whole or in part pending his decision on the application.

5. *Procedure on application for commutation.*—(1) Where application is made to the Commissioner under section 7 for the redemption of a right to receive half-monthly payments by the payment of a lump sum, the Commissioner shall form an estimate of the probable duration of the disablement, and shall award a sum equivalent to the total of the half-monthly payments which would be payable for the period during which he estimates that the disablement will continue, less one half per cent. of that total for each month comprised in that period:

Provided that fractions of a rupee included in the sum so computed shall be disregarded.

(2) When, in any case to which sub-rule (1) applies, the Commissioner is unable to form an approximate estimate of the probable duration of the disablement, he may from time to time postpone a decision on the application for a period not exceeding two months at any one time.

PART II.

Deposit of Compensation.

6. *Deposit under section 8 (1).*—(1) An employer depositing compensation with the Commissioner under sub-section (1) of section 8 shall furnish therewith a statement in Form A and shall be given a receipt in Form B.

(2) If, in the statement referred to in sub-rule (1), the employer indicates that he desires to be made a party to the distribution proceedings, the Commissioner shall, before allotting the sum deposited as compensation, afford to the employer an opportunity of establishing that the person to whom he proposes to allot such sum is not a dependant of the deceased workman, or, as the case may be, that no one of such persons is a dependant.

(3) The statement of disbursements to be furnished on application by the employer under sub-section (4) of section 8 shall be in Form C.

7. *Publication of lists of deposits.*—The Commissioner shall cause to be displayed in a prominent position outside his office an accurate list of the deposits received by him under sub-section (1) of section 8, together with the names and addresses of the depositors and of the workmen in respect of whose death the deposits have been made.

8. *Procedure where no compensation deposited.*—(1) Where a dependant of a deceased workman claims that compensation is payable in respect of the death of the workman, and no compensation has been deposited in accordance with sub-section (1) of section 8 in respect thereof, the dependant may apply to the Commissioner for the issue of an order requiring the employer to deposit compensation in accordance with the said sub-section:

Provided that no such application shall be entertained, unless the applicant certifies therein that he has requested the employer to deposit compensation and that the employer has refused or omitted to do so.

(2) The Commissioner shall dispose of such application in accordance with the provisions of Part V of these rules:

Provided that—

(a) the Commissioner may, at any time before issues are framed, cause notice to be given in such manner as he thinks fit to all or any of the dependants of the deceased workman who have not joined in the application, requiring them, if they desire to join therein, to appear before him on a date specified in this behalf,

(b) any dependant to whom such notice has been given and who fails to appear and to join in the application on the date specified in the notice shall not be permitted thereafter to claim that the employer is liable to deposit compensation, unless he satisfies the Commissioner that he was prevented by any sufficient cause from appearing when the case was called on for hearing.

(3) If, after completing the enquiry into the application, the Commissioner issues an order requiring the employer to deposit compensation in accordance with sub-section (1) of section 8, nothing in sub-rule (2) shall be deemed to prohibit the allotment of any part of the sum deposited as compensation to a dependant of the deceased workman who failed to join in the application.

9. *Deposit under section 8 (2).*—An employer depositing compensation in accordance with sub-section (2) of section 8 shall furnish therewith a statement in Form D, and shall be given a receipt in Form E.

10. *Manner in which compensation may be invested under section 8.*—If the Commissioner decides under sub-section (1) of section 8 that any compensation allotted under that sub-section to a dependant under a legal disability should be invested, he may invest it for the benefit of the dependant in Government securities or Post Office Cash Certificates, or deposit it in a Post Office Savings Bank.

PART III.

Inquiry by employer.

11. *Right of employer to present memorandum when notice given.*—

(1) Any employer to whom notice of an accident has been given may at any time, notwithstanding the fact that no claim for compensation has been instituted in respect of such accident, present to the Commissioner a memorandum, supported by an affidavit made by himself or by any person subordinate to him having knowledge of the facts stated in the memorandum, embodying the results of any investigation or inquiry which has been made into the circumstances or cause of the accident.

(2) A memorandum presented under sub-rule (1) shall, subject to the payment of such fee as may be prescribed, be recorded by the Commissioner.

PART IV.

Medical Examination.

12. *Workman not to be required to submit to medical examination save in accordance with rules.*—A workman who is required by sub-section (1) of section 11 to submit himself for medical examination shall be bound to do so in accordance with the rules contained in this Part and not otherwise.

13. *Examination when workman and medical practitioner both on premises.*—When such workman is present on the employer's premises, and the employer offers to have him examined free of charge by a qualified medical practitioner who is so present, the workman shall submit himself for examination forthwith.

14. *Examination in other cases.*—In cases to which rule 13 does not apply, the employer may—

- (a) send the medical practitioner to the place where the workman is residing for the time being, in which case the workman shall submit himself for medical examination on being requested to do so by the medical practitioner, or
- (b) send to the workman an offer in writing to have him examined free of charge by a qualified medical practitioner, in which case the workman shall submit himself for medical examination at the employer's premises or at such other place in the vicinity as is specified in such offer and at such time as is so specified :

Provided that—

- (i) the time so specified shall not, save with the express consent of the workman, be between the hours of 7 P.M. and 6 A.M., and
- (ii) in cases where the workman's condition renders it impossible or inadvisable that he should leave the place where he is residing for the time being, he shall not be required to submit himself for medical examination save at such place.

15. *Restriction on number of examinations.*—A workman who is in receipt of a half-monthly payment shall not be required to submit himself for medical examination elsewhere than at the place where he is residing for the time being more than twice in the first month following the accident, or more than once in any subsequent month.

16. *Examination after suspension of right to compensation.*—If a workman whose right to compensation has been suspended under sub-section (2) or sub-section (3) of section 11 subsequently offers himself for medical examination, his examination shall take place on the employer's premises or at such other place in the vicinity as may be fixed by the employer, and at a time to be fixed by the employer not being, save with the express consent of the workman, more than 72 hours after the workman has so offered himself.

17. *Examination of women.*—(1) No woman shall without her consent be medically examined by a male practitioner, save in the presence of another woman.

(2) No woman shall be required to be medically examined by a male practitioner if she deposits a sum sufficient to cover the expenses of examination by a female practitioner.

PART V.

Procedure.

18. *Introductory.*—Save as otherwise provided in these rules, the procedure to be followed by Commissioners in the disposal of cases under the Act or these rules and by the parties in such cases shall be regulated in accordance with the rules contained in this Part.

19. *Applications.*—(1) Any application of the nature referred to in section 22 may be sent to the Commissioner by registered post or may be presented to him or to any of his subordinates authorised by him in this behalf and, if so sent or presented, shall, unless the Commissioner otherwise directs, be made in duplicate in the appropriate Form, if any, and shall be signed by the applicant.

(2) There shall be appended to every such application a certificate, which shall be signed by the applicant, to the effect that the statement of facts contained in the application is to the best of his knowledge and belief accurate.

20. *Examination of Applicant.*—(1) On receiving such application the Commissioner may examine the applicant on oath, or may send the application to any officer authorised by the Local Government in this behalf and direct such officer to make such examination and forward the record thereof to the Commissioner.

(2) The substance of any examination made under sub-rule (1) shall be recorded in the manner provided for the recording of evidence in section 25.

21. *Summary dismissal of application.*—The Commissioner may, after considering the application and the result of any examination of the applicant under rule 20, summarily dismiss the application, if, for

reasons to be recorded, he is of opinion that there are no sufficient grounds for proceeding thereon.

22. *Preliminary inquiry into application.*—If the application is not dismissed under rule 21, the Commissioner may, for reasons to be recorded, call upon the applicant to produce evidence in support of the application before calling upon any other party, and, if upon considering such evidence the Commissioner is of opinion that there is no case for the relief claimed, he may dismiss the application with a brief statement of his reasons for so doing.

23. *Notice to opposite party.*—If the Commissioner does not dismiss the application under rule 21 or rule 22, he shall send to the party from whom the applicant claims relief (hereinafter referred to as the opposite party) a copy of the application, together with a notice of the date on which he will dispose of the application, and may call upon the parties to produce upon that date any evidence which they may wish to tender.

24. *Appearance and examination of opposite party.*—(1) The opposite party may, and if so required by the Commissioner, shall, at or before the first hearing or within such time as the Commissioner may permit, file a written statement dealing with the claim raised in the application, and any such written statement shall form part of the record.

(2) If the opposite party contests the claim, the Commissioner may, and, if no written statement has been filed, shall proceed to examine him upon the claim, and shall reduce the result of the examination to writing.

25. *Framing of issues.*—(1) After considering any written statement and the result of any examination of the parties, the Commissioner shall ascertain upon what material propositions of fact or of law the parties are at variance, and shall thereupon proceed to frame and record the issues upon which the right decision of the case appears to him to depend.

(2) In recording the issues, the Commissioner shall distinguish between those issues which in his opinion concern points of fact and those which concern points of law.

26. *Power to postpone trial of issues of fact where issues of law arise.*—When issues both of law and of fact arise in the same case, and the Commissioner is of opinion that the case may be disposed of on the issues of law only, he may try those issues first, and for that purpose may, if he thinks fit, postpone the settlement of the issues of fact until after the issues of law have been determined.

27. *Diary.*—The Commissioner shall maintain under his hand a brief diary of the proceedings on an application.

28. *Reasons for postponement to be recorded.*—If the Commissioner finds it impossible to dispose of an application at one hearing, he shall record the reasons which necessitate a postponement.

29. *Judgment.*—(1) The Commissioner, in passing orders, shall record concisely in a judgment his finding on each of the issues framed and his reasons for such finding.

(2) The Commissioner, at the time of signing and dating his judgment, shall pronounce his decision, and thereafter no addition or alteration shall be made to the judgment other than the correction of a clerical or arithmetical mistake arising from any accidental slip or omission.

30. *Summoning of witnesses.*—If an application is presented by any party to the proceedings for the citation of witnesses, the Commissioner shall, on payment of the prescribed expenses and fees, issue summonses for the appearance of such witnesses, unless he considers that their appearance is not necessary for the just decision of the case.

31. *Exemption from payment of costs.*—If the Commissioner is satisfied that the applicant is unable, by reason of poverty, to pay the prescribed fees, he may remit any or all of such fees. If the case is decided in favour of the applicant, the prescribed fees which, had they not been remitted, would have been due to be paid, may be added to the costs of the case and recovered in such manner as the Commissioner in his order regarding costs may direct.

32. *Right of entry for local inspection.*—A Commissioner before whom any proceeding relating to an injury by accident is pending may at any time enter the place where the workman was injured, or where the workman ordinarily performed his work, for the purpose of making a local inspection or of examining any persons likely to be able to give information relevant to the proceedings:

Provided that the Commissioner shall not enter any premises of any industrial establishment except during the ordinary working hours of that establishment, save with the permission of the employer or of some person directly responsible to him for the management of the establishment.

33. *Procedure in connection with the local inspection.*—(1) If the Commissioner proposes to conduct a local inspection with a view to examining on the spot the circumstances in which an accident took place, he shall give the parties or their representatives notice of his intention to conduct such inspection, unless in his opinion the urgency of the case renders the giving of such notice impracticable.

(2) Such notice may be given orally or in writing, and, in the case of an employer, may be given to any person upon whom notice of a claim can be served under sub-section (2) of section 10, or to the representative of any such person.

(3) Any party, or the representative of any party, may accompany the Commissioner at a local inspection.

(4) The Commissioner, after making a local inspection, shall note briefly in a memorandum any facts observed, and shall show the memorandum to any party who desires to see the same, and, on payment of the prescribed fee, shall supply any party with a copy thereof.

(5) The memorandum shall form part of the record.

34. *Power of summary examination.*—(1) The Commissioner during a local inspection or at any other time, save at a formal hearing of a case pending before him, may examine summarily any person likely to be able to give information relative to such case, whether such person has been or is to be called as a witness in the case or not, and whether any or all of the parties are present or not.

(2) No oath shall be administered to a person examined under sub-rule (1).

(3) Statements made by persons examined under sub-rule (1), if reduced to writing, shall not be signed by the person making the statement, nor shall they, except as hereinafter provided, be incorporated in the record or utilised by the Commissioner for the purpose of arriving at a decision in the case.

(4) If a witness who has been examined under sub-rule (1) makes in evidence any material statement contradicting any statement made by him in such examination and reduced to writing, the Commissioner may call his attention to such statement, and shall in that case direct that the parties be furnished with the relevant part of such statement for the purpose of examining or cross-examining the witness.

(5) Any statement or part of a statement which is furnished to the parties under sub-rule (4) shall be incorporated in the record.

(6) Where a case is settled by agreement between the parties, the Commissioner may incorporate in the record any statement made under sub-rule (1), and may utilise such statement for the purpose of justifying his acceptance of, or refusal to accept, the agreement reached.

35. *Agreement to abide by Commissioner's decision.*—(1) If a party states in writing his willingness to abide by the decision of the Commissioner, the Commissioner shall inquire whether the other party is willing to abide by his decision.

(2) If the other party agrees to abide by the Commissioner's decision, the fact of his agreement shall be recorded in writing and signed by him.

(3) If the other party does not agree to abide by the Commissioner's decision, the first party shall not remain under an obligation so to abide.

36. *Procedure where indemnity claimed under section 12 (2).*—(1) Where the opposite party claims that if compensation is recovered against him he will be entitled under sub-section (2) of section 12 to be indemni-

fied by a person not being a party to the case, he shall, when first called upon to answer the application, present a notice of such claim to the Commissioner accompanied by the prescribed fee, and the Commissioner shall thereupon issue notice to such person in Form J.

(2) If any person served with a notice under sub-rule (1) desires to contest the applicant's claim for compensation or the opposite party's claim to be indemnified, he shall appear before the Commissioner on the date fixed for the hearing of the case or on any date to which the case may be adjourned and, if he so appears, shall have all the rights of a party to the proceedings; in default of so appearing he shall be deemed to admit the validity of any award made against the opposite party and to admit his own liability to indemnify the opposite party for any compensation recovered from him:

Provided that, if any person so served appears subsequently and satisfies the Commissioner that he was prevented by any sufficient cause from appearing, the Commissioner shall, after giving notice to the aforesaid opposite party, hear such person, and may set aside or vary any award made against such person under this rule upon such terms as may be just.

(3) In any proceeding in which a notice has been served on any person under sub-rule (1), the Commissioner shall, if he awards compensation, record in his judgment a finding whether the person against whom such claim is made is or is not liable to indemnify the opposite party.

37. *Procedure in connected cases.*—(1) Where two or more cases pending before a Commissioner arise out of the same accident, and any issue involved is common to two or more such cases, such cases may, so far as the evidence bearing on such issue is concerned, be heard simultaneously.

(2) Where action is taken under sub-rule (1), the evidence bearing on the common issue or issues shall be recorded on the record of one case, and the Commissioner shall certify under his hand on the records of any such other case the extent to which the evidence so recorded applies to such other case, and the fact that the parties to such other case had the opportunity of being present, and, if they were present, of cross-examining the witnesses.

38. *Certain provisions of Code of Civil Procedure, 1908, to apply.*—Save as otherwise expressly provided in the Act or these rules, the following provisions of the First Schedule to the Code of Civil Procedure, 1908, as applied to the Rajputana and Central India Railway lands, namely, those contained in Order V, rules 9 to 30; Order VII, rules 9 to 18; Order IX; Order XIII; Order XVI; Order XVII; and Order XXIII, rules 1 and 2, shall apply to proceedings before Commissioners, in so far as they may be applicable thereto:

Provided that—

- (a) for the purpose of facilitating the application of the said provisions, the Commissioner may construe them with such alterations not affecting the substance as may be necessary or proper to adopt them to the matter before him;
- (b) the Commissioner may, for sufficient reason, proceed otherwise than in accordance with the said provisions, if he is satisfied that the interests of the parties will not thereby be prejudiced.

39. *Apportionment of compensation among dependants.*—The provisions of this Part, except those contained in rules 23, 24 and 36 shall, as far as may be, apply in the case of any proceedings relating to the apportionment of compensation among dependants of a deceased workman.

PART VI.

TRANSFER.

40. *Transfer for report.*—(1) A Commissioner transferring any matter to another Commissioner for report in accordance with sub-section (2) of section 21 shall, along with the documents referred to in that sub-section, transmit to such other Commissioner a concise statement, in the form of questions for answer, of the matter on which report is required.

(2) A Commissioner to whom a case is so transferred for report shall not be required to report on any question of law.

41. *Transmission of money.*—Money transmitted by one Commissioner to another in accordance with sub-section (2) of section 21 shall be transmitted either by remittance transfer receipt, or by money order, or by messenger, as the Commissioner transmitting the money may direct.

PART VII.

Appointment of Representatives.

42. *When representative must be appointed.*—Where any party to a proceeding is under the age of 15 years or is unable to make an appearance, the Commissioner shall appoint some suitable person, who consents to the appointment, to represent such party for the purposes of the proceeding.

43. *When new representative to be appointed.*—If the Commissioner considers that the interests of any party for whom a representative has been appointed under rule 42 are not being adequately protected by that representative, or if a person appointed to act as representative dies, or becomes incapable of acting, or otherwise ceases to act as such, the Commissioner shall appoint in his place another person who consents to the appointment.

PART VIII.

Record of Memoranda of Agreement.

44. *Form of memorandum.*—Memoranda of agreement sent to the Commissioner under sub-section (1) of section 28 shall, unless the Commissioner otherwise directs, be in duplicate, and shall be in as close conformity as the circumstances of the case admit with Form K or Form L or Form M as the case may be.

45. *Procedure where Commissioner does not consider that he should refuse to record memorandum.*—(1) On receiving a memorandum of agreement, the Commissioner shall, unless he considers that there are grounds for refusing to record the memorandum, fix a date for recording the same, and shall issue a notice in writing in Form N to the parties concerned that in default of objections he proposes to record the memorandum on the date so fixed :

Provided that the notice may be communicated orally to any parties who are present at the time when notice in writing would otherwise issue.

(2) On the date so fixed, the Commissioner shall record the memorandum unless, after hearing any of the parties who appear and desire to be heard, he considers that it ought not to be recorded :

Provided that the issue of a notice under sub-rule (1) shall not be deemed to prevent the Commissioner from refusing to record the memorandum on the date so fixed even if no objection be made by any party concerned.

(3) If on such date the Commissioner decides that the memorandum ought not to be recorded, he shall inform the parties present of his decision and of the reasons therefor, and, if any party desiring the memorandum to be recorded is not present, he shall send information to that party in Form O.

46. *Procedure where Commissioner considers he should refuse to record memorandum.*—(1) If, on receiving a memorandum of agreement, the Commissioner considers that there are grounds for refusing to record the same, he shall fix a date for hearing the party or parties desiring the memorandum to be recorded, and shall inform such party or parties and, if he thinks fit, any other party concerned, of the date so fixed and of the grounds on which he considers that the memorandum should not be recorded.

(2) If the parties to be informed are not present, a written notice shall be sent to them in Form P or Form Q, as the case may be, and the date fixed in such notice shall be not less than seven days after the date of the issue of the same.

(3) If, on the date fixed under sub-rule (1), the party or parties desiring the memorandum to be recorded show adequate cause for proceeding to the record of the same, the Commissioner may, if information has already been given to all the parties concerned, record the agreement. If information has not been given to all such parties, he shall proceed in accordance with rule 45.

(4) If, on the date so fixed, the Commissioner refuses to record the memorandum, he shall send notice in Form O to any party who did not receive information under sub-rule (1).

47. *Procedure on refusal to record memorandum.*—(1) If in any case the Commissioner refuses to record a memorandum of agreement, he shall briefly record his reasons for such refusal.

(2) If the Commissioner refuses to record a memorandum of agreement, he shall not pass any order directing the payment of any sum or amount over and above the sum specified in the agreement, unless opportunity has been given to the party liable to pay such sum to show cause why it should not be paid.

(3) Where the agreement is for the redemption of half-monthly payments by the payment of a lump sum, and the Commissioner considers that the memorandum of agreement should not be recorded by reason of the inadequacy of the amount of such sum as fixed in the agreement, he shall record his estimate of the probable duration of the disablement of the workman.

48. *Registration of memorandum accepted for record.*—In recording a memorandum of agreement, the Commissioner shall cause the same to be entered in a register in Form R, and shall cause an endorsement to be entered under his signature on a copy of the memorandum to be retained by him in the following terms, namely:—

Grant of licenses for the sale of foreign spirits and foreign fermented liquor.

No. 4113—277-Ry.-II., dated the 19th June, 1923.—In exercise of the powers conferred by section 6, proviso (6), and by section 23 of the Central India, Gwalior and Rajputana Excise Law, 1922,¹ the Agent to the Governor General in Rajputana is pleased to make the following rules for the grant of licenses for the sale, by wholesale or by retail, of foreign spirits and foreign fermented liquor in the areas in Rajputana to which the law applies.

(1) Licenses for the sale by retail of foreign spirits and foreign fermented liquor (not to be consumed on the premises) shall ordinarily be in Form I annexed to these rules.

Licenses for the sale by wholesale of foreign spirits and foreign fermented liquor (not to be consumed on the premises) shall ordinarily be in Form II annexed to these rules.

Occasional bar licenses for the sale of foreign spirits and foreign fermented liquor (to be consumed on the premises) shall ordinarily be in Form III annexed to these rules.

Licenses for the sale at a Railway Refreshment room of foreign spirits and foreign fermented liquor (to be consumed on the premises) shall ordinarily be in Form IV annexed to these rules.

NOTE.—The Collector of Excise Revenue, Ajmer-Merwara, may direct the insertion in any license of any condition additional to those contained in the prescribed form, or may, with the sanction of the Agent to the Governor General in Rajputana, direct the omission or modification of any condition contained in the prescribed form.

(2) Licenses under these rules may be granted by the Collector of Excise Revenue, Ajmer-Merwara, or by any officer authorised by him in that behalf.

Explanation.—The Collector of Excise Revenue, Ajmer-Merwara, may authorise an officer to grant licenses for a specified place or area, or to grant any specified class of licenses, and may restrict such authority by such reservations or conditions as he may think fit.

(3) Excepting occasional bar licenses, which shall not be issued for any period exceeding six days, no such license shall be issued for a period of more than one year or less than a quarter, which shall ordinarily be calculated from the 1st day of one of the months of January, April, July or October.

(4) Licenses in Forms I and II for the sale of foreign spirit and foreign fermented liquor within Railway limits shall be granted only (a) in favour of the Managers of Railway Co-operative Associations or similar institutions approved in this behalf by the authorities of the railway within whose premises they are situated, (b) with the approval of the same authorities, in favour of the holders of licenses in Form IV.

(5) Licenses in Form III will be granted only in order to enable spirits and fermented liquor to be sold at entertainments by or on behalf of the organisers of these entertainments. Such a license will be granted only after the licensing officer has satisfied himself that its issue is desirable in the interests of the persons attending the entertainment and is not otherwise objectionable. In each license the hours, during which sale will be permitted, will be entered by the licensing officer with due regard to the circumstances of the entertainment for which it is required.

(6) Licenses in Form IV will be granted only in favour of persons approved by the railway authorities in that behalf.

(7) The fees ordinarily payable for licenses shall be:—

For a license in Form I . . .	Rs. 12-8 per quarter payable in advance.
For a license in Form II . . .	Rs. 25 per quarter payable in advance.
For a license in Form III . . .	Rs. 4 per night payable in advance.
For a license in Form IV . . .	Rs. 25 per quarter payable in advance.

Provided that in any case where in the opinion of the licensing officer the grant of a license in Form I, Form II or Form IV is desirable in the interests of the public convenience, while the probable extent of the business done is not such as would justify the levy of the prescribed fee, the licensing officer may, after recording his reasons in writing, grant a license on the payment of a reduced fee the amount of which shall not, excepting with the previous sanction of the Collector of Excise Revenue, Ajmer-Merwara, be less than half of the prescribed fee.

INDIAN RAILWAYS ACT, 1890.

Rules for the guidance of the Police in the arrest and prosecution of Railway employes in Mysore under sections 101 and 131 of the Indian Railways Act, 1890.

No. 1250, dated the 11th March, 1904.—The Resident in Mysore is pleased to issue the following rules for the guidance of the police on the portions of the railways in Mysore under the jurisdiction of the British Government in the matter of arrest and prosecution of Railway employes under sections 101 and 131 of the Indian Railways Act, 1890 (Act IX of 1890).

ARREST.

The exercise by the Railway Police of the power of arrest without warrant given them in section 131 of the Indian Railways Act (IX of 1890) for offences under section 101 of the same Act, is discretionary. It should be exercised only in extreme cases as for instance when—

- (a) there has been loss of life or serious injury to persons; or
- (b) a person is caught in the commission of a grave offence;
- (c) the accused is likely to abscond or to continue to endanger the safety of the public.

When arrest is made without warrant, immediate intimation of such arrest must be given to the head of the railway employe's Department.

2. Under ordinary circumstances, no immediate arrest is necessary. A warrant should be applied for in the usual manner, the police maintaining a watch over the movements of the accused, where this precaution is deemed necessary.

3. When arrest is effected by warrant, the warrant should in the absence of any direction to the contrary in the warrant under section 77 of the Code of Criminal Procedure, 1898, be executed by a Police officer of rank superior to that of a Head Constable, First Grade, or by any Station House Officer within his own limits. The officer entrusted with the execution of the warrant will execute it judiciously, and if the arrest is likely to cause risk or inconvenience to the public, make arrangements to prevent the escape of the accused and apply to the head of his department to have him relieved, arrest being deferred till he is so relieved.

¹ Under the terms of Notification No. 507-I., dated the 6th February, 1896 (printed p. 471 *supra*) orders under Acts in force in the Civil and Military Station of Bangalore are in force in the railway lands in Mysore over which jurisdiction has been ceded, unless declared to the contrary. The orders printed here for Mysore are additional orders made specially for the railway lands.

PROSECUTION.

No prosecution for an offence under section 101 of the Indian Railways Act (IX of 1890) shall be instituted by a Police officer without the sanction of the Superintendent of the Railway Police, which shall be communicated immediately it is accorded to the Agent or Manager of the Railway.
